

The 46 reinforces the fundamentals that have made the brand a reference for hedonistic and generous boating : freedom and daring, softness of life and innovations.

The 46 combines adjustable cockpits at the front and back, a complete kitchen area at the back, a clear and secure access to the sea, while retaining large volumes in the square.

The Flybridge, with its double access, is dedicated to both maneuvering and relaxation. The centered bar station offers both protection and visibility. For comfort, sun protection with a rigid Bimini.

On catamarans of this size, the dinghy descent system is simple. On the 46 it is possible to opt for an electric davit.
